[Special to The Times-Dispatch.] Washington, February 16.—Senator Gallinger to-day announced that he would immediately begin a national involved campaign against human vivisectionists. He will introduce in the Senate this week a resolution calling upon the public health and marine hospital service of the navy for a national investigation of the shocking charges developed in New York City. Should the facts which have been alleged prove true, Senator Gallinger will then introduce in the Senate a bill providing a long penitentiary sentence for any physician who experiments with a human being. He proposes that the penitentiary sentence shall be obligatory and not optional with the judge trying the case.
